

The motto of the School of Nursing (SN) of The Hong Kong Polytechnic University (PolyU) is "To excel in Nursing for the well-being of mankind". Join us at SN, and we will help you make a difference to your life and **INSPPIRE** you to apply your academic excellence in a professional context for the benefit of mankind. Join us for a unique learning experience and you will be better equipped for further success and future challenges where it counts most – in the real world.

International Nursing Scholarship for Pre-PhD in Research Excellence (INSPPIRE)

About PolyU

PolyU is a government-funded university in the Hong Kong Special Administrative Region of the People's Republic of China. The University has a strong team of academic staff with solid experience in supervising research postgraduate students. In addition, many of our Chair Professors/Professors are internationally leading experts in their research areas. World-class research with emphasis on high application value is conducted.

About SN

The mission of research in School of Nursing is to advance evidence-based nursing practice for an optimal health and well-being of all people locally, nationally, and internationally. The School provides a nurturing and supportive environment for these activities of scientific knowledge inquiry. It also provides a platform and infrastructure for intellectual exchanges and opportunities and challenges for researchers in Hong Kong, Mainland China and overseas.

The research strengths of the School lie in the diversity of our output and the innovations and talents of our faculty. We have been conducting high quality clinical and applied research in nursing and health sciences. Our high quality and applied research contributed to various positive impacts on nursing sciences and knowledge for education and social policies. While the School supports different new research initiatives and development, the School invests strategically and continuously in prioritized areas of research in order to develop the critical mass and excellence of research based on the School's internationally recognized strengths and expertise.

Background

There are opportunities for local and international students to study for a PhD in Hong Kong. Options include:

- Fully funded (competitive) Hong Kong PhD Fellowship Scheme;
- Fully funded (with stipend) School of Nursing PhD scholarships;
- Joint PhD Programmes Leading to Dual Awards
- Joint Supervision Scheme with the Chinese Mainland, Taiwan and Macao Universities (the student will be registered at the Chinese Mainland, Taiwan and Macao Universities concerned, whereas PolyU acts as the co-supervisor of the student and the student needs to fulfill the residence requirement).

Aims

The aims of this **INSPPIRE**ing programme are:

- * For those local or international students who are planning to read for a PhD degree and would like to consider a HK fellowship / scholarship
- 1. To introduce PhD training in the School of Nursing to international students.
- 2. To provide an opportunity for international students to explore and understand life in Hong Kong as a student.
- 3. To bring together high caliber Hong Kong and international students to discuss doctoral education challenges, opportunities and collaborations.
- 4. To encourage future cross-institutional collaborations.
